Isaac was our videographer for our wedding last month and we can't recommend him enough! He was such a positive, kind person to be around during the day and the video we received afterwards was amazing! It made us so happy to be able to relive the day again and to see the little moments we missed. The video really captured the details of the day and our venue! We are so so happy with it! It's something we can share with family who weren't able to make it and we're so excited to be able to share our special day of our lives with our future family. Thank you so much, Isaac!

Originally when we were putting our budget together for our wedding we did not include a videographer. However after talking with our friends one of their biggest regrets for their wedding was not having one, so we changed our minds and found Isaac. And let me tell you - I'm so happy we did. Even if you think you have a small enough guest count that you'll be able to talk to everyone and soak it all in, you can't. Our wedding day went by in a blur. There were so many small moments that I didn't register or parts of our wedding I didn't even get to see. And that's where Isaac comes in.

The video he put together for our wedding had me in tears a few times. All the small details, all the small moments (and big moments!). Being able to see our wedding through his lens was absolutely wonderful. I'm so happy that we have this memory forever. All my friends and family that we shared it with has said it was very well done.

Isaac himself was professional and I'm so happy we had him as part of our vendor team. I would absolutely recommend him to anyone that is looking for a videographer for their wedding!

# MY FAMILY

This is the reason I do what I do. From left to right, Me, Leo, Burley, Joy, Josephine and Rocco. I was born and raised in the Pacific Northwest and loved spending time in the garden and adventuring with the kids. We recently moved to North Eastern California to be close to Joy's family and to try our hand at homesteading. We love to grow food for our family and spend time playing board games and building forts in the woods.

# GET STARTED!

To start your booking process with me, I ask all my clients to fill out a quick inquiry on my client management software. This software handles all the contracts, payments and it organizes all our emails into one place. This makes organization easy for you and for me. The link is on my website.
